MANAGER, FIELD SERVICES
Sheryl Huestis
sherylh@specialolympicsontario.com

We hope this update package brings you the information you need to plan your programs, and helps you to keep current with Special Olympics news and provincial initiatives. Each of the staff from the Provincial Office has inserted a few comments to connect you to their specific area. Please feel free to provide us with feedback or send us any questions you have about the details in this package.

Staffing Updates

With a new season comes new staff members, and staff members in new positions:

- Northern Ontario will be pleased to welcome new District Developer Jarrod Copland to the position.
- Sheryl Huestis has entered the role of Manager of Field Services. This follows the transition of James Noronha to Manager of Program Services.
- There are several new staff members in administrative and support roles at the Provincial Office. We are certain you're looking forward to meeting them as much as they are, you!

e-Resources at a Glance

Staff at Special Olympics Ontario have worked hard to provide our members with the resources needed to get the job done!

The **Membership Database** provides administrators at the community and regional level the ability to update club reports and athlete and volunteer contact info. Once Community Registrars are trained, they are provided with a username and password to access the site located at soo.activesoc.com.

The **Information Portal** is a one-stop-shopping centre that brings together many resources that can be viewed or downloaded by volunteers and kept current by staff, all in one central location. A few sections are still being developed, but members can search out topics to do with sport, competition, community councils, fundraising, sport policy, etc. The portal may be accessed from the “What we Do” tab at the SOO website, or directly at info.specialolympicsontario.ca.

The SOO website has always provided access to various forms. Several of those are now available as **Online Forms** that are received by staff immediately upon submission. These include New Club Registration, Insurance Request, Accident/Incident Report, Grant Applications, and Volunteer Years of Service Correction. All forms, including online forms, may be accessed from the “Forms” link at the bottom of the SOO webpage, www.specialolympicsontario.com.

SOO has launched a new site, which features videos to engage our members and the general public. Found at video.specialolympicsontario.ca, the site offers footage of Games, competition, and inspiration, not only from across Ontario but internationally. The site will be an important resource for “e-learning,” an initiative that will provide our volunteers with an opportunity to train online on various topics.

The SOO **e-Learning Portal** will bring together online training for athlete, coach and volunteer development under one roof. This will include training resources provided by our partners in sport, formal online training courses for NCCP and coach development courses, volunteer orientation or role-specific training for volunteer leaders, the Athlete College for athlete leadership and speakers training, and technical training and support for systems such as the National Database and GMS. *e-Learning* at SOO will also connect you to the SOO Video Repository as well as our online course and webinar system. The system is currently in active development with an expected launch date of the second week of October 2011. At launch, training courses will be offered for technical training such as the ActiveSOC National Database as well as links to resources and videos for communities using Special Olympics Sites and email tools provided by Google. To get a sneak peak at what e-Learning will look like please visit elearn.specialolympicsontario.ca.

Administrative Reminders

For those who are looking for supplies (ribbons for competitions; brochures, buttons and balloons for promotional events, or volunteer certificates), please email supplies@specialolympicsontario.com. Please be sure to indicate quantity, and include a full mailing address.

In order for facility administrators to receive their certificate of insurance, please process all requests 30 days in advance. Insurance requests are to be made through the online form at the SOO website. For any general insurance questions, please email insurance@specialolympicsontario.com.

Competition

2012 National Winter Games

Athletes selected to Team Ontario's training squad are busily preparing for their trip to St. Albert, Alberta to represent the province in winter sport. The Games will be held from Feb. 28 through March 3. The team's progress may be followed at the Team Ontario website, team.specialolympicsontario.ca. Athletes, coaches and supporters can familiarize themselves with the community and the Games setup by visiting the Games website at stalbert2012.ca.

Chef de Mission Jennifer Findlay is working with Mission Staff to ensure a wonderful Games experience. Athletes, coaches and families should be in consistent contact with their Provincial Team Liaison.

Spring Provincials: Kingston 2012

The Ontario Provincial Police in partnership with the Kingston Police Service are looking forward to hosting the province next May 31—June 3 for the Provincial Spring Games.

SOO staff are busily preparing selections to the regional teams based on the qualifiers held in Spring 2011. Announcements can be expected early this fall.

Sport Technical Consultants Required!

There is an exciting new position for volunteers who are passionate about their sport. Special Olympics Ontario is looking to fill the roles of "Sport Technical Consultant" for each sport included at the Kingston Spring Games. This unique role will see volunteers involved directly in their sport, offering technical expertise to the Games Organizing Committee on such topics as scheduling, competition format, and venue standards.

The complete job description is available at go.specialolympicsontario.ca/sporttechjob. There is an online application form that can be filled out, at go.specialolympicsontario.ca/sporttechapp. The deadline for applications is October 7th.

Reminder :

2010/2011
AND
2011/2012
league record
sheets will be
required for all
5- and 10-pin
bowlers attending
the 2012 Provincial
Spring Games.

Athens 2011

27 athletes and 5 Coaches were selected to represent Canada at the 2011 World Summer Games in Greece. Upon announcement of the team, the athletes were extremely focused and increased their training regime to ensure a superior performance at the World Games.

Team Canada came home with 124 medals in total with Ontario athletes making a significant contribution to that total. Congratulations to all athletes and coaches who were selected to represent Canada.

2011 Provincial Floor Hockey Championships

The Greater Sudbury Police Service, together with Cambrian College, hosted a terrific competition that saw 24 teams gather for a weekend of floor hockey from June 9-11, 2011.

Highlights of Thursday evening's opening ceremonies included opening remarks from Dr. Frank Hayden, and the OHL Commissioner and Honorary Games Chair Mr. David Branch. Other memorable moments were the Knights of Columbus Hockey Shootout, the Healthy Athletes Expo that welcomed the community, the Family Forum which included a reception and dinner, and the Athletes' Dance.

4 Corners Basketball

Special Olympics Ontario is pleased to be offering a dynamic new competition opportunity for school and community youth. A 3-on-3 basketball tournament will be held in four communities in Ontario over the upcoming school year: Sudbury, October 28-29; Ottawa, November 25-26; London, February 10-11 2012, and Oakville, March 2-3.

The Friday will see school teams compete, and the Saturday will welcome youth from the community. Teams can be made up of any interested athletes; they need not be with a registered basketball program.

Curling Update

In addition to regional and invitational spiels, our athletes will take part in qualifying competitions for the 2011 Ontario Curling Association (OCA) Men's Provincial Championship (Tankard) to be held in Stratford February 2012.

The qualifying process for the Tankard begins in December each season. The first competitions of this process, Region Playdowns, are held in December in SOO Regions 1-7, 11 and 12. The winning "A" and "B" teams from each of these Playdowns advance to the Tankard Qualifier for their respective Region (Southwest (S-W) for Regions 1-5, and Southeast (S-E) for Regions 6, 7, 11 and 12), with the "A" and "B" division winners from the S-W and S-E advancing to their respective championship game at the OCA Tankard.

SOO relies heavily on the assistance of our registered curling clubs and their respective Regions to provide host sites for Region Playdowns and Tankard Qualifiers. Please contact Juli Prokopchuk Brattan for assistance in planning your qualifier.

ACTION REQUIRED: If your Region has yet to schedule a Region Playdown, dates and locations for these one-day competitions need to be arranged as soon as possible.

2012 Regional Competitions for Winter & Spring Sports

Special Olympics Ontario’s mandate is for every region to host a minimum of one competition per sport per year, in which there are two or more active clubs. Competitions are hosted by a Sport Club, under the guidance of the Region’s Competition Manager for the season in which the sport is played. The Competition Manager is responsible for ensuring that the organization and quality of the competition meets the standards of Special Olympics Ontario.

One competition per sport, per region is only a MINIMUM requirement. Communities throughout each region are still encouraged to host invitational tournaments, leagues, exhibition games or meets, etc. Ideally, each community that has a sport club would host a competition in that sport for the rest of the clubs within their region. Obviously, there are many geographical, financial and logistical factors that make this difficult. However, we will always strive for as many opportunities for athletes to compete as possible.

The most important factor in the setting of your season schedules is communicating dates and registration information throughout the Region.

After the RCM a schedule should start coming together and should be communicated to the RCMT, District Developer and Competition Developer immediately. If a new event is scheduled at a later date, please ensure to inform your Competition Manager and District Developer so they can disseminate the information to the rest of the Region. Too many clubs are missing out on competitive opportunities because they are unaware that events are even occurring.

During the Regional Coaches Meeting, please take the time to plan your Winter and Spring Regional and Invitational Competitions. If you have any questions, please be sure to get in touch with your RCMT or Juli Prokopchuk Brattan for assistance.

ACTION REQUIRED: Regional and Invitational competitions must be planned and communicated to the RCMT, District Developer and SOO’s Competition Developer.

IMPORTANT: Summer 2012 is the qualifying year for the 2013 Provincial Summer Games. Please begin planning your summer provincial qualifiers.

Coaching Matters

The Wonderful World of NCCP

- The Coaching Association of Canada (CAC) has made great improvements to the www.coach.ca website including a soon-to-be-launched feature called the “Locker Room.” In the future, SOO/SOC NCCP information will be posted here as well as new ways of checking certification and Special Olympics Ontario requirements. Please note that it could be some time until you see the Special Olympics information populated. It will be worth the wait!
- The NCCP transcript update process experienced a backlog through the spring and summer which has now mostly been resolved. You may no longer receive updates via the mail; please check your e-mail inboxes for transcript notifications. For CC number inquiry or password resets, please contact the CAC at coach@coach.ca
- Quest for Gold Funding for Sport Specific NCCP is available through the Coaches Association of Ontario. For further details, please visit the “Bursaries & Funding” section of their website, coachesontario.ca. This funding DOES NOT apply to the Special Olympics Canada courses.

Visit coach.ca to “check certification” and view your transcript.

Do you have an NCCP concern or suggestion? Contact us at coaching@specialolympicsontario.com.

Summer Season Roundup

Do you have a sport concern? Are you looking for information, rules, or coaching support? Network with SOO staff and coaches from across the province at SOO’s online discussion groups. We are looking to hear how your season went - we want to hear from you!

<http://info.specialolympicsontario.ca/Sport--Discussion-Forums>

We had a great year developing golf in Ontario and are excitedly looking towards the future. We will be holding a golf discussion forum on October 30th at 7pm. Call in number /Skype details will be posted on our Golf discussion page soon.

Speed Skating Rule change

In the past athletes were allowed to wear bike helmets. Under the new rule bike helmets are no longer allowed. Bike helmets pose a safety risk because the speed skate blades can actually fit between the slits and potentially cut an athlete. Below is the new rule:

SSC Rule D3-100

All skaters must wear a ASTMF 1849-07 approved speed skating helmet

OR CSA approved hockey, snowboard/ski or skateboarding helmet only.

Also as a reminder, hockey skates are no longer to be used.

School & Youth Programs

This past spring eight high school teams participated in the annual Special Olympics Basketball Tournament at Rim Park in Waterloo. This competition was a lot of fun for all involved as it showcased the tremendous abilities and positive attitudes of the participants. The event concluded with a very exciting and closely contested game between the Saint David Celtics of Waterloo and the Centennial CVI Spartans of Guelph. This game went back and forth for two halves before the Spartans emerged victorious by holding on for a 1 point win at the buzzer.

This result was not surprising given that Centennial CVI fields a strong team on an annual basis. What was surprising was who showed up on the sidelines as head coach for them in this tournament. Instead of the usual coaches, it was a former player Andrew McTaggart who had starred for Centennial as a player in this event over the past few years. We soon learned that Andrew's former teachers and the regular coaches of this team (Mr. Lunn and Mr. Rubenstein) saw an opportunity for Andrew to develop his coaching skills and see the game from a coach's point of view. So there was Andrew, dressed to lead in a suit and tie, with briefcase and official line up forms for the scorer's table. He was in control of his well-prepared team from the very first whistle as he led them through the tournament and onto victory in the championship game.

A few weeks after the tournament, we had a chance to visit Centennial CVI. We found out that their regular coach, Eric Lunn decided to pass on the coaching duties to Andrew a few weeks before the tournament. According to Eric, Andrew was responsible for every aspect of the team's program as they prepared for competition.

We also found out that Andrew has quite the history with Special Olympics. He has been active in Special Olympics since the age of nine. He participates in Floor Hockey, Softball and basketball. The highlight of his career came in 2008 when his Floor Hockey team took home the silver medal from the Special Olympics World Games in Boise, Idaho.

Andrew, who was the leading scorer on both his high school team as well as his provincial championship winning community team, lists Phoenix Suns Guard Steve Nash as his favourite basketball player and Mike Krzyzewski of Duke University as his favourite coach. He says that he looks up to his basketball coaches at both the high school and community programs as they have made him a better player and a better person.

At the end of the discussion, Andrew was asked if he preferred to be a playing or coaching. His answer: Coaching! This is certainly good news for up and coming Special Olympics athletes in the Guelph area!

Former CVI Spartan Andrew McTaggart returned to the court not as an athlete but as a coach for last spring's annual SOO School Basketball Tournament.

Growth continues in the Active Start and FUNdamental programs being run through a variety of partnerships with agencies such as Blue Balloon and ErinoakKids. The programs are also being offered via municipal Parks and Recreation Departments like the City of Barrie, as well as community Special Olympic Programs.

Our Youth Programs Developer is also working to support our young “ready to compete” athletes with the development of sport-specific youth programs like basketball, golf, and soccer. There has been great success within the mainstream youth soccer clubs to host Special Olympics programs and we only hope to see this flourish around the Province and in other sports.

Pickering Soccer Club has partnered with SOO to offer a Special Olympics program within their generic youth soccer programs. Such partnerships are key to building sport skills for our young athletes.

<p>Active Start is a 12 week program for children ages 2-6 years of age. The children will be introduced to movement and develop their basic motor skills that are needed for later participation in sport.</p>	<p>FUNdamentals is for children 7-12 years of age and is also a 12 week program that introduces children to the importance of nutrition, and provides them with sport-specific activities aimed at improving basic motor and sport skills.</p>	<p>We are also looking forward to soon unveiling a program targeted at those 13-21 years old, that will focus on having them get more involved with athletics without committing to one specific sport.</p>

CONTACT US:
 Jeannie Skeggs, Youth Programs Developer: jeannies@specialolympicsontario.com or 1-888-333-5515 x249
 Adrian Szamreta, School Programs Developer: adrians@specialolympicsontario.com or 1-888-333-5515 x255

Special Olympics Ontario (SOO) is focusing on The pahl Project to promote healthy active living to persons with intellectual disabilities. The project aims to enhance the ability of athletes to train and compete, while empowering athletes to invest in their overall health and wellness.

New Resources

The pahl program continues to grow with the addition of new resources and programs to its portfolio. One of the most important resources is the newly redesigned pahl website, pahl.specialolympicsontario.ca. The website provides athletes, coaches, and volunteers easy access to current news about all the resources developed and programs executed underneath the pahl umbrella.

New resources such as the Nutritional Guide, Diary Tracking Sheet, and Exercise Guide will be unveiled in the very near future and will be found at the pahl website along with the Preparing to Compete Workbook.

Step Into Action!

Special Olympics Ontario is pleased to announce the launch of a new program for our members to look for in the upcoming months: the pahl Step into Action program. The Step into Action program is an initiative designed by pahl to engage athletes and non-athletes alike to enhance their physical activity levels in their communities outside of the sporting context. Beyond simply walking, this initiative was also developed with the intentions to educate SOO athletes about nutrition and physical fitness, with the ultimate goal of helping them along the path of living a healthy and active life.

Excitingly, the Step into Action Program will have its own website featuring a specific tool called the Challenge Tracker. The Challenge Tracker provides coaches, volunteers, parents, and caregivers the ability to create a specific step challenge for each of their athletes and track their progress over time.

Healthy Athletes

On June 10th and 11th, SOO successfully hosted a Healthy Athletes event in Sudbury as a part of the 2011 Special Olympics Provincial Floor Hockey Championships. The disciplines offered at this event were Fit Feet, MedFest, and Opening Eyes. In total, 235 athletes, students and community members were screened. At the event,

551 screenings were completed by 56 podiatrists, physicians, nurses, and optometrists from Sudbury, Manitoulin Island, North Bay, Ottawa, Waterloo, and the Greater Toronto Area (GTA). In addition to the clinicians, 84 volunteers from Sudbury and surrounding communities (Lively, North Bay, Manitoulin Island) assisted the clinicians with registration and any tasks needed during the event.

Those participating in the 2012 Kingston Spring Games should look forward to attending the Healthy Athletes event to be hosted in line with the Games. Information regarding the disciplines being offered at those Games will be posted as it becomes available.

Volunteers: A Celebration of Dedication

Special Olympics Ontario continues to be inspired by the commitment to the movement shown by our longest-serving volunteers. This year, we are pleased to present 25- and 30-year Years of Service Awards to the following recipients:

25 Years:

Sandra Bruni	Windsor
David Hutchinson	Cambridge
Marian Hutchinson	Cambridge
William Steinman	St. Catharines
Lorraine Steinman	St. Catharines

30 Years:

Carol Kukor	London
Sandra Goodwin	Cambridge
Helen Oneschuk	Kenora
Willie Bayne	Owen Sound

These members will be recognized as they receive their awards at the Annual General Meeting, October 19th in Markham.

SOO Sport Awards 2011

Special Olympics Ontario's annual Sport Awards recognize the achievement of SOO athletes and the dedication of SOO volunteers. The following award recipients will be honoured at the October 19th Annual General Meeting in Markham.

- Female Athlete of the Year: Leslie Woodyatt (Toronto)
- Male Athlete of the Year: Austin Featherstone (Manitoulin Island)
- Female Coach of the Year: Sue-Ann Laxton (Hamilton)
- Male Coach of the Year: Del Bonham (Central Bruce)
- President's Award: Rob Goodfellow (Hamilton)
- Volunteer of the Year: Claudia Diebel (Toronto)
- Educator of the Year: Deborah Cox (Ottawa District School Board)

The Database

New Training Resources

Special Olympics Ontario is pleased to launch the online **Active SOC National Database Training Program**. Existing database users who wish to brush up on their skills can view the training videos at the online video portal link, video.specialolympicsontario.ca (look under Technical Training). Existing users who wish to review their training are encouraged to view the video tutorials as they are very comprehensive and easy to use.

For new database users, a comprehensive training course with quizzes will be offered online starting in October and will be accessible through the online courses offered at elearn.specialolympicsontario.ca.

This training course is divided into five modules that will teach users the basics of using the Active SOC Database, including: how to login; how to look up and edit a member record; how to look up an entity, and how to generate reports. At the end of each module there will be a quiz for users to evaluate themselves to determine whether they are ready to go on the next module or continue to work at the current one.

This e-learning course is now a prerequisite for those volunteers who wish to have database access in order to maintain membership records for their community. When new users feel comfortable with this database, they will be provided with access to the live database with supplementary training and support from SOO.

Quick Tip:

The Database User Guides are available at the Information Portal:

info.specialolympicsontario.ca/technology-support/activesoc---national-database
Users can check here for little reminders and hints and tricks. For example, if you are still pressing “ctrl” to enable pop-ups, try the revised instructions.

New Database Features

Using Entity Navigator to look up your community/club list

From Entity Navigator you were not able to see the members of your community and club. What you could see was the entity’s basic info and facility info. Now you can click on the PDF Item icon, and a complete PDF report of your community or club will pop up. This can be printed or saved to your desktop.

Contact Profile Report

Users may know that using the “Print Item” icon or “PDF Item” icon allows you to print or save a member’s complete profile from their individual member record. You can print or save these reports for all members of your community or club by using the “Contact Profile Report.” The full activity of the members can be viewed in this report.

This is a useful tool to update your members’ profiles annually, as you can print them and send them to the head coach or team manager to review and update them. Once deemed current, the form may be sent to the community registrar or SOO office for updates. This has a two-sided printing option as well.

Marketing

TELUS

Special Olympics Canada has partnered with TELUS Mobility, whereby TELUS will donate \$50 to Special Olympics for any new activation or renewal from April 2011 to April 2012. For more information and to register please visit telusmobility.com/specialolympics.

“Give a Toonie, Share a Dream”

The annual Staples “Give a Toonie, Share a Dream” campaign will take place this year between November 5th and 26th.

Communities are encouraged to visit their local STAPLES store to promote their programs. Communities will receive a \$250 grant for visiting each store. Store managers may plan other events such as a barbecue, a hockey shoot-out, silent auction, etc., that communities can become involved in. Your District Developer will be in touch with you to confirm your participation in the campaign as the dates approach.

EKS Day

On 24 September 2011, Eunice Kennedy Shriver Day (EKS Day) will be celebrated around the world bringing together people with and without intellectual disabilities in sport activities to honor the inspiration, impact and indomitable spirit of Eunice Kennedy Shriver. While nearly 4 million Special Olympics athletes and millions of coaches, families, fans and friends live her legacy and lead our movement every day, we unite on EKS Day in over 100 countries and thousands of communities to show the world the power of sport to create opportunities of acceptance.

Marketing (continued...)

Special Olympics Ontario is pleased to announce that 174 athletes have been chosen to represent Ontario at the 2012 National Winter Games in St. Albert, Alberta from February 28, 2012 - March 3, 2012. Team Ontario athletes need your support! All the athletes are committed to doing their best and have been training hard to ensure they cross the finish line but not all of them have the financial means to get to the games. You can help by asking your family, friends and co-workers to help by donating any amount they can to ensure every athlete gets to compete.

Visit go.specialolympicsontario.ca/teamontariosponsorship to donate TODAY.

The 2012 Games is their chance to compete on the National stage, and potentially represent Canada at the 2013 World Winter Games to be held in South Korea.

Social Networking 101

QR CODES— In keeping with changing technology, Special Olympics

Ontario has created unique QR Codes. This specific QR code, when scanned using your mobile device application, redirects you to the online mobile giving page for SOO.

FACEBOOK – If you aren't a Special Olympics Ontario FAN on Facebook, BE A FAN today! Visit www.facebook.com/specialolympicsontario and LIKE us. We currently have 839 "FANS" and are hoping to reach 1,000 "FANS" before the end of 2011.

YOUTUBE – See Special Olympics Ontario in action on YouTube. We are always updating our YouTube channel with new videos, so take a look today to see what's happening with your favourite charity. Visit www.youtube.com/specialolympicsontario and subscribe to our channel to be notified of new videos posted.

MOBILE GIVING – All websites and online giving are now compatible for mobile viewing on devices such as iPhones, Android and Blackberry's. It is now easier than ever to donate and fundraise on the go!

Law Enforcement Torch Run

The Ontario Law Enforcement Torch Run for Special Olympics is approaching the historic 25th Anniversary of the program in 2012. The Torch Run will activate a variety of new and exciting initiatives that will help build awareness and far surpass the amount of revenue generated for Special Olympics Ontario in years past.

This past year, Law Enforcement played a significant role in hosting two sets of Special Olympic Games in Thunder Bay and Sudbury, respectively. The Provincial Winter Games were hosted by the Thunder Bay Police Service with officers volunteering in a variety of capacities on the Games Organizing Committee. The Games featured over 400 athletes, coaches and volunteers from across the Province as well as over 80 Torch Run participants braved the frigid weather and helped kick off a very successful Games. In the spring, the Sudbury Police Service proudly hosted the Provincial Floor Hockey Championships and did a tremendous job running the Games and engaging the Community. Over 100 Torch Run participants ran the 'Flame of Hope' into the Opening Ceremonies.

The Ontario Law Enforcement Torch Run continues to grow every year and with the 25th Anniversary milestone upon us, we plan to honour the past and evolve the future with an array of Anniversary programs and celebrations. Additionally, The International Law Enforcement Torch Run Conference will be held in Calgary, Alberta from November 3-5, 2011. It will mark the first time in 30 years the Conference will be held on Canadian soil.

The support of the Law Enforcement Torch Run is invaluable to Special Olympics Ontario and as this partnership grows towards its 25th anniversary, we say "thank you" to the men and women of Law Enforcement who selflessly contribute so much, not only to the Special Olympics movement, but to their communities every day.
